

Protect Against Inflation

Featured Strategies

With expectations that elevated inflation may persist, consider adding exposure to asset classes and strategies that can help protect a portfolio against the negative potential impacts of inflation.

AGFiQ Global Infrastructure ETF

- In an inflationary environment infrastructure and real estate companies are generally able to pass on rising costs to end users as well as benefit from higher revenues.
- The strategy employs a systematic, factor-driven approach to invest in an expanded universe of global infrastructure equities, including renewable energy and digital infrastructure.

Suitable for	Investors looking to enhance portfolio diversification and obtain potentially higher yields.
Invests in	Expanded universe of global infrastructure equities selected using a quantitative, multi-factor model.

AGF Global Growth Balanced Fund

- A balanced solution that combines AGF Global Select Fund and AGF Total Return Bond Fund.
- The strategy provides global exposure to leading innovative companies and an unconstrained fixed income strategy where managers can position the portfolio to navigate an inflationary environment.

Suitable for	Investors looking for potential superior returns with moderate risk through a combination of growth and income.
Invests in	A globally diversified mix of equities that aims to have superior growth, bonds and cash.

AGF Total Return Bond Fund

- The strategy's 'go-anywhere' mandate enables the team to be tactical and focus on the most attractive global fixed income opportunities.
- The portfolio management team has the flexibility to adjust portfolio duration based on the interest rate outlook and to allocate to TIPS, convertible bonds, high yield debt, emerging market bonds and physical gold.
- **AGF Global Opportunities Bond ETF** (Ticker: AGLB) is also available. AGLB follows a similar investment approach and provides comparable fixed income exposure.

Suitable for	Investors looking to maximize yield
Invests in	The most attractive global opportunities among countries, corporate bonds, sectors and currencies

FOR ADVISOR USE WITH INVESTORS.

In order to invest in and maintain participation in the AGF Preferred Pricing Program, a Household (which may consist of a single investor) must meet the minimum investment requirements of: (i) at least \$100,000 in one eligible mutual fund; or (ii) at least \$250,000 in Household assets across multiple eligible funds, based on the higher of book value or market value. All Preferred Pricing management fee reductions are at AGF's discretion and depend on a number of factors, including the size of the investment, nature of the investment and the fees charged by the applicable series/fund. Eligible series and funds are determined by AGF and may change from time to time at AGF's discretion. Tier level discounts apply only to the dollar amount(s) grouped in each particular tier.

The targeted annual distribution is based on the Fund's or Portfolio's previous year-end net asset value and is subject to change. Monthly distributions on Series T and Series V shares may generally be a return of capital so long as there is sufficient capital attributable to the relevant series. The payment of distributions should not be confused with a fund's performance, rate of return or yield. If distributions paid by the fund are greater than the performance of the fund, your original investment will shrink. Distributions paid as a result of capital gains realized by a fund, and income and dividends earned by a fund, are taxable in your hands in the year they are paid. Your adjusted cost base will be reduced by the amount of any returns of capital. If your adjusted cost base falls below zero, you will have to pay capital gains tax on the amount below zero.

This document is intended for advisors to support the assessment of investment suitability for investors. Investors are expected to consult their advisor to determine suitability for their investment objectives and portfolio. Commissions, trailing commissions, management fees and expenses all may be associated with investment fund investments. Please read the prospectus before investing. Investment funds are not guaranteed, their values change frequently and past performance may not be repeated.

Series F securities can be purchased under the simplified prospectus only through your registered dealer who has obtained consent of AGF to offer Series F securities.

FundGrade A+® is used with permission from Fundata Canada Inc., all rights reserved. The annual FundGrade A+® Awards are presented by Fundata Canada Inc. to recognize the "best of the best" among Canadian investment funds. The FundGrade A+® calculation is supplemental to the monthly FundGrade ratings and is calculated at the end of each calendar year. The FundGrade rating system evaluates funds based on their risk-adjusted performance, measured by Sharpe Ratio, Sortino Ratio, and Information Ratio. The score for each ratio is calculated individually, covering all time periods from 2 to 10 years. The scores are then weighted equally in calculating a monthly FundGrade. The top 10% of funds earn an A Grade; the next 20% of funds earn a B Grade; the next 40% of funds earn a C Grade; the next 20% of funds receive a D Grade; and the lowest 10% of funds receive an E Grade. To be eligible, a fund must have received a FundGrade rating every month in the previous year. The FundGrade A+® uses a GPA-style calculation, where each monthly FundGrade from "A" to "E" receives a score from 4 to 0, respectively. A fund's average score for the year determines its GPA. Any fund with a GPA of 3.5 or greater is awarded a FundGrade A+® Award. For more information, see www.FundGradeAwards.com. Although Fundata makes every effort to ensure the accuracy and reliability of the data contained herein, the accuracy is not guaranteed by Fundata.

AGF U.S. Small-Mid Cap Fund won in the U.S. Small/Mid Cap Equity CIFSC Category, out of 142 funds. The FundGrade A+ start date was 1/31/2012 and the FundGrade A+ end date was 12/31/2021.
